SUMMARY

I'm an Android developer with internship experience at Dhvanil Infotech. I build responsive apps using Kotlin, Jetpack Compose, and MVVM architecture. I love solving challenges, integrating APIs, and designing intuitive user interfaces while always learning new technologies.

INTERNSHIP

Android App Developer
Dhvanil Infotech

Rajkot
05/2024 - 08/2024

- Developed dynamic UI components with Kotlin and Jetpack Compose, significantly enhancing the visual appeal and responsiveness of mobile applications.
- Applied MVVM clean architecture principles to optimize performance and maintain a scalable, modular codebase.
- Researched new technologies and tools related to Android app development.

Shopify Website Management
DeoDap

Rajkot
12/2024 - Present

SKILLS

- Android   - Jetpack Compose   - Kotlin   - Room Database
- UI/UX Design   - Android SDK   - API Integration

EDUCATION

Bachelor of Computer Applications (BCA)
H.N. Shukla Colleges, Rajkot

04/2021 - 03/2024

- Mobile Application Development, Database Management

Master of Science in Information Technology (MSC.IT)
H.N. Shukla Colleges, Rajkot

08/2024 - Present

LANGUAGES

Android   (Native)   Kotlin   (Intermediate)   Java   (Intermediate)

STRENGTHS

Proficient App Development
Skilled in building apps with modern frameworks.

Dynamic UI Expertise
Experience in developing dynamic UIs.

Adaptability And Learning
Strong ability to learn and implement new tech.
